Work Expirience:

- **Cashier - Walmart,** 8801 Ohio Dr, Plano, TX 75024   *06/2014 - 01/2015*
- **Bookseller - Barnes & Noble,** Stonebriar Centre, 2601 Preston Rd #1204, Frisco, TX 75034   *09/2015 - present*

Personal Projects:

- **Music Review Website: (PHP, Slim, Eloquent, Twig, HTML/CSS, JQuery)**
  https://github.com/ShayanJavadi/MusicReviewWebsite
  - o Website built using Slim framework to act as an output channel for my album reviews
  - o Fully functioning admin area that allows for creating/updating/deleting models
  - o I plan on adding additional features such as, rating charts, search by album mood/descriptors, and recommendations based on user's last.fm listening patterns

- **Twitter Clone Website: (PHP, Slim, Eloquent, Twig, HTML/CSS, JQuery)**
  https://github.com/ShayanJavadi/yeller
  - o Web application based off of Twitter that allows for posting tweets, and following people, with recommendations for who to follow
  - o Uses AJAX for seamless user interactions (posting, deleting, following, unfollowing)

- **Chat app: (PHP, Slim, Eloquent, Twig, HTML/CSS, Javascript)**
  https://github.com/ShayanJavadi/slimchat
  - o real-time chat web application that allows the user to create chatrooms or join other user's chatrooms
  - o Allows for time-series visualization of predicted paths, and exporting results to CSV
